Establishes a mechanism for the Department of Correction to use state funds to contract with local governments and qualified private entities to develop community-based alternatives to incarceration that provide a treatment-centered pathway for offenders and outlines such contract requirements. Makes various changes to probation sentencing and the revocation of probation.										Other Fiscal Impact: Changes in probation may lead to the increased use of alternatives to incarceration and a reduction in state incarceration expenditures and a corresponding increase in state expenditures related to sentencing alternatives; however, the timing and net impact of such changes are unable to be quantified with reasonable certainty. DHS will allocate \$191,000,000 from existing surplus TANF reserve fund for rainy-day purposes. Prohibits a state or local government official, entity, department or agency from requiring proof of vaccination against COVID-19 under certain circumstances.										Other Fiscal Impact: Redelegating the local government authority to the state could result in local governments ceasing to fund their county health department, or county board of health. If any local government ceased to fund such health entities, there would be an increase in state expenditures and a correlating decrease in local expenditures for continued operation of each health entity. Due to multiple unknown factors a precise fiscal impact cannot be determined.
